Dojo Design System v2

the collector's edge

A premium collectibles marketplace built for trust. This document is the complete reference: tokens, foundations, all seventeen components, slide layouts, and the mobile app UI kit.

DARK-FIRST | FLAT & SATURATED | SHARP CORNERS | THE PLUNK

window.DojoDesignSystemV2_c47eee

DOJO

Brand & voice

Dojo is an original brand inspired by the NeoPOP design principles open-sourced by CRED. The brand language is a tactile dark "plunk" look: hard offset shadows instead of blur, bold flat colour blocking, pressable surfaces with explicit elevated and pressed states, and confident condensed geometric type.

VOICE

Calm, confident, a little terse. Collector-to-collector, never corporate. Second person — "your collection", "you're up 12.4%". No hype words.

CASING — THE SIGNATURE

Labels and buttons shout in caps (SCAN A CARD). Prose murmurs in lowercase sentence case, even at sentence starts ("the collector's edge").

NUMBERS FIRST

Headlines are frequently just a number. Deltas always signed with hard triangles: ▲ +12.4% jade, ▼ −3.2% vermilion. Cents on hero values.

EMOJI — NEVER

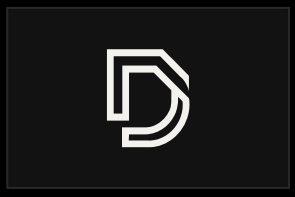

Unicode geometric glyphs ▲ ▼ ◆ · are the only ornaments permitted anywhere in the system.

EXAMPLE COPY

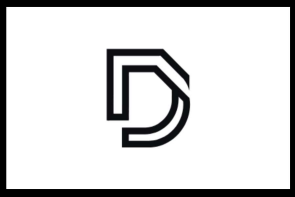

"Added to portfolio — Charizard Base Set Holo is now tracked."

"Scan failed. Try again with better lighting."

LOGO & WORDMARK

Colour — neutrals

Dark is home. The ink stack carries every app surface; paper whites serve the light "showroom" theme. Flat and saturated throughout — no gradients, no glows, no glassmorphism.

INK — APP SURFACES

ink-900	ink-800	ink-700	ink-600	ink-500	ink-400
#000000	#121212	#161616	#1E1E1E	#3D3D3D	#8A8A8A

PAPER — SHOWROOM SURFACES

▲ +12.4% this month

LIGHT — [DATA-THEME="LIGHT"]

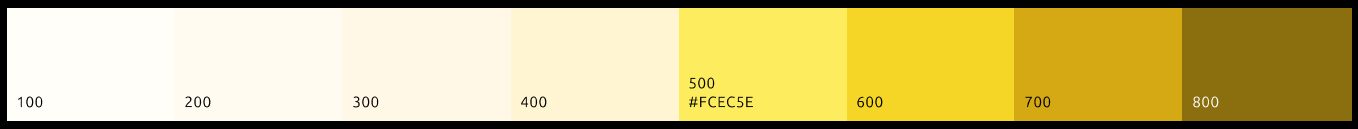

$48,290.15

▲ +12.4% this month

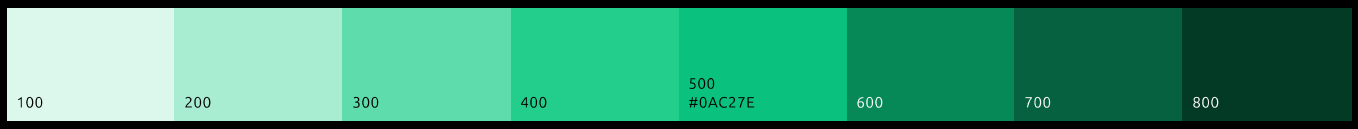

Colour — accents

One signature gold accent and three semantic hues. Jade reads gains, vermilion reads losses, amber reads caution. Each ships a full 100–800 ramp; the 500 step is the canonical token.

GOLD — SIGNATURE ACCENT · --GOLD-500

JADE — GAINS · --POSITIVE

VERMILION — LOSSES · --NEGATIVE

AMBER — CAUTION · --WARNING

DELTAS IN USE

GAIN	LOSS	CAUTION
▲ +18.2%	▼ −4.1%	◆ PENDING

Colour — semantic aliases

Always reach for the alias, not the raw ramp step. Aliases are what flip between the dark and light themes; raw values do not.

SURFACES

--surface-app	ink-900
--surface-card	ink-800
--surface-raised	ink-700
--surface-inverse	paper-100

ACCENT & SEMANTIC

STROKES & CONTROLS

--stroke-card	white 10%
--stroke-strong	paper-100
--divider	white 10%
--control-bg	ink-700
--control-checked-bg	gold-500

LIGHT THEME OVERRIDES — [DATA-THEME="LIGHT"]

Surfaces move to paper, text alphas re-base on `#0D0D0D`, plunk edges flip to lighter neutrals (`--edge-bottom: ink-400`, `--edge-right: paper-400`), and the field caret darkens to `gold-600`. Accents are unchanged across both themes.

Typography

Ubuntu Sans (variable weight and width) carries all UI, metrics and numbers. Marcellus is reserved for ceremony — screen headers and onboarding. Numbers are always tabular. ⚠️ Both stand in for the brand's proprietary Gilroy & Cirka.

DISPLAY — 800 WEIGHT, 87% CONDENSED, TIGHT TRACKING

.t-hero · 44 / 1.05 — **$48,290.15**

Spacing, corners, elevation & motion

SPACING — 5PX BASE UNIT

PAGE PADDING — ASYMMETRIC

left 30px · right 15px

CORNERS — SHARP BY DEFAULT

--radius-sharp 0px everywhere · --radius-soft 4px (Toast only)

ELEVATION — "THE PLUNK"

elevated · bottom darker, right lighter

pressed · face moves down-right, edges collapse

--plunk-w 3px
--plunk-w-lg 6px
--plunk-angle 45deg

Hard offset edges only — never blur. Checkbox is the inverse: it presses *into* the surface.

MOTION — SNAPPY & MECHANICAL

120ms	150ms	200ms	ease-in-out	cubic-bezier (.2,0,0,1)
--dur-press	--dur-fast	--dur-move	--ease-mech	--ease-snap

Never spring, bounce, overshoot, float, or run ambient idle animation. Desktop hover is a slight pre-press; the press state is primary. No opacity dimming, no colour-darken hovers.

Button

The plunk button. Filled variants shimmer and glow their border on click; outlined variants glow only. Sizes big / medium / small, each in sharp and full-radius forms.

Surfaces & navigation

ElevatedCard is the static plunk block; BottomSheet slides up over a flat 60% ink scrim — the one deliberate transparency in the system. Header runs serif, Back is a long square-cap arrow row, TabBar is the app's bottom nav.

AREACHART — DIPPING (AUTO VERMILION)

Iconography

Square-cut glyphs weight-matched to the type scale — stroke = 0.75 + weight/400 px. Lucide's rounder caps were too soft for Dojo's geometry. No icon font, no emoji; Unicode ▲ ▼ ◆ · are the only text ornaments. SocialIcon vendors the Google and Facebook brand marks.

`stroke = 0.75 + weight/400 px`

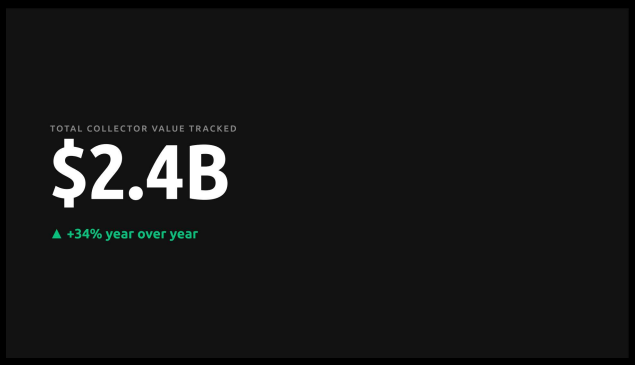

Slide layouts

14 · TEMPLATES

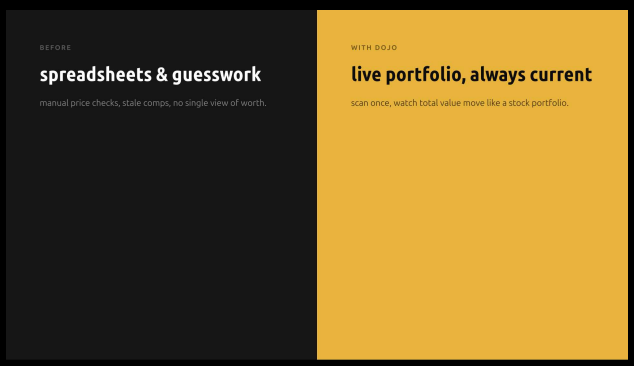

Four 16:9 layouts ship in `templates/dojo-deck/` — title, big number, comparison and quote. Flat colour blocks butted hard against each other; the gold page is the deck's one inversion.
